New Enterprise Stone & Lime Co., Inc.

# PREMIUM MIX / MASTERFIBER M100

## PREMIUM MIX

- ❖ **EFFECTIVE** – The Premium Mix is a specially formulated concrete developed by New Enterprise Stone & Lime, Co., Inc. (NESL) to resist scaling, provide superior finishing, and reduce efflorescence.
- ❖ **ECONOMICAL** – Enhanced concrete performance for about 25¢ per square foot.
- ❖ **PROVEN PERFORMANCE** – Developed in 2013. Supplied to over 100 commercial and residential projects.
- ❖ **MORE INFORMATION** – For additional information on mix performance, contact Mark Moyer, Technical Services Manager at 814.224.6870

## MASTERFIBER M100 FIBER

- ❖ **EFFECTIVE** - M100 fibers help control plastic shrinkage cracking by minimizing segregation, reducing evaporation by helping to retain water, and provide increased tensile strength at the surface to resist the shrinkage forces that cause cracking.
- ❖ **ECONOMICAL** – Provides plastic shrinkage crack control for about 10¢ per square foot.
- ❖ **INVISIBLE** – Virtually invisible in the final product.
